

Sugar Mountain

Written by Neil Young

[Chorus]

D Oh to live on **C** Sugar Mountain

D With the barkers and the **C** colored balloons

D You can't be twenty on **C** Sugar Mountain

Am Though you're thinking that you're leaving there too **D** soon

Am You're leaving there too **D** soon

D It's so noisy at the **C** fair

But all your friends are **D** there

And the candy floss you **C** had

And your mother and your **D** dad

[Chorus]

There's a **D** girl just down the **C** aisle

Oh to turn and see her **D** smile

You can hear the words she **C** wrote

As you read the hidden **D** note

[Chorus]

Now you're **D** underneath the **C** stairs

And you're giving' back some **D** glares

To the people that you **C** met

And it's your first **D** cigarette

[Chorus]

Now you **D** say you're leaving' **C** home

'Cause you want to be **D** alone

Ain't it funny how you **C** feel

When you're finding' out it's **D** real?

[Chorus]
